CUD COIN

WHITEPAPER

www.cudcoin.com

Abstract

BEP-20 network offers varieties of quality assets, but Many of those coins and tokens are such that they are not scalable tokens/coins. Because today, despite having 23,126 coins in the cryptocurrency industry, it cannot contribute much to the world of Web 3.0 because of its high volatility. CUD Coin is a new currency generated through decentralized smart contracts on the BEP 20 network. Anyone can trade on the best-decentralized exchange in the world. Here we believe that the CUD coin will come as a scalable coin, which will make a significant contribution to the crypto industry.

The CUDC Foundation is a legal entity incorporated in the Republic of the uk.

Introductory Note

The founders believe their main mission is to contribute to the building of a society united by the common desire to upgrade their standards of living through the implementation of top of the range innovation and through the use of ultrahigh quality technology. In this context, blockchain is actually the most discussed technology nowadays and is widely seen as the obvious successor of the internet. Blockchain technology combines a set of existing technologies, including distributed data storage, peer-to-peer transmission, consensus mechanism and encryption algorithm, to introduce a novel way of data and value formation, transmission, storage and usage. The breakthroughs brought by blockchain technology have already proven the potential to fundamentally change the existing economic and financial paradigm and will most certainly lead to new technological innovation and industrial change on a global scale.

Disclaimer

Nothing here in constitutes legal, financial, business or tax advice and you should consult your own legal, financial, tax or another professional advisor (s) before engaging in any activity in connection here with. Neith the CUD Coin team, nor any of the project team members who work or have worked on the Bitgert project (as defined herein) in any way whatsoever, nor any third-party service provider shall be liable for any kind of direct or indirect damage or loss whatsoever which you may suffer in connection with accessing this Whitepaper, the website, the Twitter and the telegram or any other websites or materials published by the company.

Forward Looking Statement

Changes in the political, social, economic, and stock market conditions or cryptocurrencies, and the regulatory environment wherever the CUDC team carry out their businesses and operations. ⊖

The risk is that the CUD team may not be able to execute or implement its respective business strategies and future. changes in the anticipated growth strategies and expected internal growth of CUDC ⊖

Changes in the CUD team's future capital needs and the availability of financing and capital to finance such needs. ⊖

Changes in the competitive conditions under which the CUD team operate and its ability to compete in such conditions. ⊖

Force Majeure events, such as natural disasters, wars or acts of terrorism, and any other cases that affect the CUDC team's business and/or operations. ⊖

Nature of whitepaper

This Whitepaper is produced for informational and educational purposes only and is not purposed as a financial promotion. The information, data, or analysis presented hereunder are NOT intended to form the basis of any investment decision. This document is not investment advice, solicitation of any kind or an endorsement. Nothing in this paper should be construed as an offer or inducement, or proposal for investment, that would determine the reader to engage in any form of investing activity, nor is it meant to be a sale or issuance of securities, interests, or assets. The information in this technical document is provided in good faith. The CUDC team expressly disclaims any and all responsibility, and readers, and investors, expressly waive all claims for any direct or indirect loss or damages of any kind (whether foreseeable or not) arising directly or indirectly.

Forward Looking Statement

For the purpose of full transparency, all statements contained hereunder, or any other statements made in press releases or in any place accessible to the public and oral statements that may be made by the Bitgert team or on behalf of the CUDC team by their legally appointed representatives in any given circumstance, constitute "forward-looking statements." These statements are matters that are not historical facts, but only predictions.

The predictions stated in this technical document, or in any other statements or publications may turn out to be wrong. Our assessments may, at any given time, be at least partially affected by inaccurate assumptions or by known or unknown present or unforeseen risks and uncertainties. So, our statements may involve potentially known and unknown risks, but also other factors that may cause CUD Coin's actual future results, performance, or achievements to be materially different from our initial expectations. These factors include, but are not limited to:

Mission

- ⊖ To try on unlocking CUD coin's potential and making CUDC easy to use. ⊖
- ⊖ To make CUD Coin a marketplace with global reach. To provide attention to the financial profits and safety of every single stakeholder. ⊖
- ⊖ To facilitate the ability of buyer-seller to transact a wallet in the most secure way. ⊖

Mission

- ⊖ To create a global CUD Coin marketplace where buyers and sellers can buy, sell and trade CUD Coin in the most secure and trusted manner.
- ⊖ To solve current problems of customers in a manner that make their business easier.

Our Core Values

Be Magical. We are positive and kind above all else. Our main goal is to create happiness in other lives. Be Charitable We strive to be as giving as we can possibly be, helping out our community as much as we can. Be Sustainable We make decisions that are based on our long-term health, not short-term gain. Be Transparent We strive to be open and honest with our community at all times, for the benefit of all.

Cud Coin On BEP- 20

Cud Coin is developed by using Binance Smart Chain (BEP-20) because Binance offers a variety of benefits. Like, Transactions on the Binance Blockchain technology at a Very Less Cost. Binance does not impose a fee for asset transfers. It assists sellers and buyers through its free transactions, promotes, and provides the optimal business environment. Rapid transactions The network can handle up to 2000 transactions per second. Scalability and the potential to revolutionize online media are encouraged by such transactional capacity. This is a major accomplishment compared to Ethereum (25 transactions) or BitToken (3-6 transactions). Creates dApps On the network, you can create dApps. You can earn digital assets by creating a dApp on the network and offering content on it. These can be in regular Binance you created Binance backs that. As a result, you may be compensated for your efforts in developing the app and its content. If you don't want to create your own dApps, you can still browse through the vast collection already created.

Solid Reputation - CUD Coin

CUD Coin has a solid reputation in the cryptocurrency world. The amount of money spent by the company on security and the personnel it has hired demonstrates this. As with other cryptocurrencies, because it is a decentralized network, the individual bears a significant responsibility for safeguarding their coins. In terms of the network as a whole, there has yet to be a security breach.

CUD Coin - Based Proof Of Stake

Seeing as cryptocurrencies are decentralized and not controlled by banks, they require a way to verify transactions. Proof of stake is a popular method (PoS). Proof of stake is a consensus mechanism for cryptocurrencies. By staking their CUD coin, cryptocurrency owners can check new transactions and add them to the Blockchain. This method replaces proof of work, the first cryptocurrency consensus mechanism. Proof of stake has grown in popularity as concerns about the environmental impact of crypto mining have grown. Proof of stake is critical for cryptocurrency investors. These are some examples of cryptocurrencies that use it. Owners of a cryptocurrency can stake Coin and create their own validator nodes using the proof-of-stake model. Staking is the act of pledging your Coin to be used for transaction verification. They are locked while you stake your Coin, but you can unstack them if you want to trade them. When a block of transactions is ready to be processed, the proof-of-stake protocol for the cryptocurrency selects a validator node to review the block. The validator verifies the accuracy of the block's transactions. If this is the case, they add the block to the Blockchain and receive cryptocurrency as a reward for their efforts. If a validator proposes adding a block with incorrect information, they will be penalized by losing some of their staked holdings.

Why CUD Coin?

Zero Human Factor - The human factor is not taken into consideration. The smart contract is not dependent on anyone, and there is no way to prevent the platform from functioning.

Referral Provides - A referral program using smart contracts on a blockchain network that enables automatic tracking and reward distribution to participants according to predefined rules, ensuring transparency and eliminating the need for intermediaries/human factors.

Immutability of Conditions: We're an immutable system built on blockchain technology, utilizing cryptographic algorithms to ensure data permanence and integrity, creating a tamper-proof and decentralized platform. Making it impossible to alter or delete once recorded on the blockchain.

Why CUD Coin?

Decentralization: We are a platform that uses advanced technology called blockchain to provide a transparent and secure system without the need for middlemen. This gives users more control over their information and assets, making things faster and more trustworthy.

Instant Transactions - Profits earned by other stakers are transferred directly into your personal wallet. There is no holding in the system, and all of your earnings are yours to keep.

Transparency and Anonymity - Because the smart contract code is public, anyone can view the complete history of all transactions. This ensures that the conditions are pure and that the platform statistics are accurate.

CUD Coin Technical Details

Name	Cambridge Universal Defi Coin
Symbol	CUDC
Decimals	8
Blockchain	BEP 20
Network	BNB Smart Chain (BEP-20)
Total Supply	72 Crore
Contract Address	0xC3067198F35F6440EA48f2B0cc5D37241882B9D7

CUD Coin Economics

Maximum Supply: 200000000 | Circulating Supply - 8 Crore

CUD Coin Market: 720000000

CUD Coin Roadmap With Futuristic Project

Step - 01

Coin Concept Development

Step - 02

Staking Plan Conceptualization

Step - 03

Smart Contract Building & Development

Step - 04

Deployment of Coin Smart Contract

Step - 05

Staking Plan Deployment and Launch

Step - 06

Listing on top DEX

Step - 07

Listing on Top Crypto Wallets

Step - 08

Will be Listed on Coin Gecko

Step - 09

Launching Recharge Portal

Step - 10

Will be listed on Centralized Exchange
